## AGITATED INTERVALS

THE GENERAL CONDITION OF POPE LEO ONCE MORE SOMEWHAT DEPRESSED.

ACTION OF KIDNEYS SLIGHTLY IMPROVED.

HIS PULSE ALSO SHOWS A DECLINE FROM THE POINT PREVIOUSLY ATTAINED.

PHYSICIANS WERE HOPEFUL

HAD LEFT PATIENT THE FIRST TIME SINCE HE REACHED A CRITICAL STATE.

Rome, July 13.—At 9:15 o'clock this morning the doctors issued the following bulletin regarding the condition of the pope:

"Up to midnight the pontiff remained tranquil, but afterward he experienced agitated intervals. A physical examination of the thorax shows no change since day before yesterday. The action of the kidneys continues slight, and the general condition of his holiness is somewhat depressed. His pulse is 82, respiration 32, and temperature 36 centigrade."

Rome, July 13.—Pope Leo has lived to see another Sunday, and with the Sabbath quiet which fell upon Rome, came also peace and even progress to the pontiff. Beginning Sunday morning with distinct signs of improvement, he maintained this throughout the day. At night Dr. Lapponi made the following important statement in answer to the question if he believed that the improvement in the pope's condition could continue:

"I believe that if the improvement lasts until July 21 we may not perhaps achieve an absolute cure, but we will secure such a general state of health in the patient as will allay our anxiety."

Participates in Services.

During the morning the pontiff participated in the celebration of mass. The ceremony was held in the chapel adjoining the sick chamber, Mgr. Marzoni being the celebrant. The door connecting the sick room with the chapel was opened so that his holiness might follow the services. He insisted that Dr. Lapponi and his valet, Centra, should leave his side and enter the chapel in order to better hear the mass.

The history of the day has been comparatively uneventful. The pontiff had several hours' repose. Dr. Lapponi resting near him throughout the night. The physicians twice administered injections to him, once of digitalis to strengthen the heart, and once of camphor to overcome the patient's growing depression. Sunday morning found the pontiff with spirits bright and the

Condition Generally Improved.

Dr. Mazzoni joined his assistant at 8:20 a. m. and after a brief conference, issued the most encouraging official bulletin thus far given. Besides summarizing the satisfactory pathological conditions, the doctors gave the cheering tidings that the pontiff's condition had manifestly improved. The pulse, which went down Saturday to 82, had risen to 86, while the temperature and respiration showed no abnormal characteristics.

Pope Leo took his usual light breakfast and Dr. Lapponi, who has remained in unceasing vigil since the patient's case became desperate, felt sufficiently assured to leave the Vatican for the first time, going to his home, where his daughter lies stricken with fever. When the physician left the sick room he was almost mobbed by high dignitaries, including several cardinals, who rejoiced at seeing the physician tranquil enough to leave the patient.

Warned Against Exaggeration.

Dr. Lapponi addressed them all by saying: "Yes, the pope is better, but I beg you not to exaggerate in optimism in order to avoid a disillusion later." Dr. Mazzoni was also absent from the pope's side, which in itself gave the clearest evidence that the doctors themselves were relieved of immediate apprehension. Dr. Rossoni has been taken sick with fever and was prevented from visiting the pope Sunday evening as he intended.

During the afternoon the pope felt strong enough to get up. He rose, dressed himself alone in white and went to sit in his usual armchair, where he remained for some time. Then the windows were opened for a change of air, the sun streaming in, together with a light, refreshing breeze from the Mediterranean. Late in the afternoon he received Cardinals Mathieu, Steinhuber, Agliardi and Casali. The pope

and lucidity of mind, and spoke to each without showing any perceptible fatigue. To Cardinal Mathieu his holiness said: "I have not ceased for one moment to pray God to protect France and have the men now governing her."

repent and stop the persecution of the church." He then sent the apostolic blessing to Cardinal Mathieu's sister, who is a nun. He heard the sick Cardinal Steinhuber, who told him that the whole Jesuit order was praying for his recovery. He then asked Cardinal Agliardi how he liked the position of the chancellor of the church to which he was appointed at the last consistory, and how the cardinal enjoyed his new residence, the beautiful and historic palace of the chancellery. Hearing that the cardinal had not yet moved there, Pope Leo said: "You must settle yourself before leaving for the country," as though the convalescence was a most remote possibility.

Sends Benediction to Alfonso.

He thanked Cardinal Casali for the warm interest he had taken in his illness, and then gave all the cardinals his hand to shake. As the king of Spain had telegraphed to inquire about the pope's health and had asked for the papal benediction, his holiness directed Cardinal Rampolla to telegraph back, granting the request.

Later, the pontiff took a short nap and slept tranquilly enough, although he seemed to have somewhat more difficulty in breathing. The doctors returned at 7:30 p. m. and their bulletins gave negative encouragement, simply showing that the favorable conditions of the morning had been maintained.

Throughout the day St. Peter's was surrounded by the usual Sunday worshippers and steady lines of inquirers visited the Vatican courtyard, where the bulletins are issued. Unusual rigor was adopted to prevent unseemly gatherings. One notable instance of Vatican sternness was the arrest of Captain Smith, commanding the Swiss guard, for having given information to the press.

NO CHANCE OF BEING POPE.

Cardinal Gibbons Cannot Succeed to Throne of St. Peter.

London, July 13.—The Daily Telegraph correspondent at Rome cables the following:

"I am authorized to state on the authority of two cardinals, one of whom himself is a candidate, that neither Cardinal Gibbons nor any other foreign member of the sacred college possesses the remotest chance of succeeding Pope Leo."

UNION MOULDER WOUNDED.

Italian Strike Breaker Shoots a Man in Sympathy with Syracuse Strikers.

Syracuse, N. Y., July 13.—An Italian strike breaker at the foundry of L. C. Stearns & Co. Sunday afternoon fired upon and wounded George Moore, a union moulder employed elsewhere, but in sympathy with the strikers. Three men are under arrest for complicity in the shooting. Thomas Ross, or Rosa; Anthony Deter, or Antonio Ditor; and Nich Perrulle, or Nicolo Mazzulo.

Moore was fired upon in the street from the factory and evidence obtained by the police points to Ross as the man who fired the shots. He himself when arrested accused Perrulle, and a number of Italians who were in the place at the time say that Deter, a sub boss, had given general orders to shoot on occasion at union pickets who walked the streets outside the factory. The shots were fired from behind a high picket fence which shut off the factory yard from the street. No immediate cause for the trouble was apparent, but during the long strike there have been threats that blood would be shed before the termination. Other people near Moore narrowly escaped being shot. When arrested, Ross was armed with a dirk. Four Winchester rifles were taken from the factory by the police. The rifles are claimed to have been procured by the head of the company and the Italian boss is said to have told his men that they would be protected if they used firearms. Mr. Stearns himself would neither confirm nor deny the statement that he had put weapons into the hands of his men. Moore's injuries are not fatal.

CREATES A SENSATION.

Idaho Minister Denounces Mormonism and Makes a Prediction.

Denver, Colo., July 13.—The local pulpits were occupied Sunday by visiting clergymen, delegates to the Christian Endeavor convention. Rev. R. J. Campbell of London preached at the Central Presbyterian church and thousands who wished to hear him were turned away for lack of standing room. During the afternoon large meetings were held in the larger church. A temperance rally was held at night at the People's tabernacle. Rev. A. K. Wright of Boise, Ida., created a sensation at a meeting at Trinity church, by denouncing Mormonism and declaring that the present political leaders of Idaho, Utah and some other states had formed alliances with the Mormon church. He predicted that there would soon be seen ten Mormons in the United States senate.

Root Confers With Roosevelt.

Oyster Bay, N. Y., July 13.—Secretary of War Root is the guest of President Roosevelt at Sagamore Hill. The pending investigation of army contracts, the Alaskan boundary question, and some problems relating to the Philippines will, it is said, be considered. This probably will be the last conference the president and the secretary of war will have before the latter sails for England to begin the work of the Alaskan boundary commission.

Fright Drives a Boy to Suicide.

Perry, Ia., July 13.—Frightened because he had set fire to his father's barn Abner Carpenter, five years old, hid away in the hay mow of the burning building and was burned to death.

## FAILED TO SEE FLAG

FAST MAIL CRASHES INTO AN EXPRESS TRAIN AND KILLS THREE PERSONS.

FIFTY OTHERS ARE INJURED

THE MAJORITY OF THOSE WHO SUSTAIN HURTS ARE KANSAS CITY NEGROES.

Kansas City, Mo., July 13.—Missouri Pacific fast mail No. 7, which left St. Louis at 3 o'clock Sunday morning for Kansas City, crashed into an excursion train, southbound from Kansas City, that had become stalled between Little Blue and Lee's Summit. Three persons were killed outright, two of them tramps, the other an unknown man, and fifty others were injured. With the exception of one or two of the crew on the fast mail, all of the injured were on the excursion train. Most of them were negroes from Kansas City, and their injuries with one or two exceptions consisted in cuts and bruises. None of the passengers on the fast mail was hurt. Only the engine, one baggage and a mail car on the fast mail left the track. Walter G. Coleman, mail clerk of St. Louis, was badly bruised and cut.

Responsibility for the wreck seems to rest with the crew of the fast mail, which failed to stop promptly when flagged. The engine on the excursion train, which consisted of twelve coaches, heavily loaded, broke down. While repairs were being made two flagmen were sent ahead to stop the fast mail, then about due. The engineer on the mail train failed to see the foremost flagman and only slackened up when warned by the second man, who was within a short distance of the excursion train. The fast mail was running at a high rate of speed and it was impossible to come to a full stop. When the fast mail struck the other train it was making fifteen miles an hour. All the injured will recover.

STRUCK BY LIGHTNING.

One Man Killed and Several Others Injured at Washington.

Washington, July 13.—During a terrible thunderstorm which passed over the city Sunday, lightning struck a bathroom near the Potomac river in which about a dozen men had taken refuge on their way home from the bathing beach. One man was killed outright, another so badly injured he may die, and still another is in the hospital suffering severely from the effects of the bolt.

Robert B. Smith was killed and Charles Slaughter, colored, may die. Every one of the men who had taken refuge in the bathroom felt the effects of the thunderbolt. Ten feet of the flag pole over the house was wrenched off and the structure itself was wrecked. C. H. Bannigan, a policeman on duty at the bathroom while hurrying to the emergency hospital for assistance after the accident, was twice rendered temporarily unconscious from the effects of the lightning striking trees near him. Prisoners from the hospital succeeded in restoring most of those who had been hurt to consciousness and the remainder were taken to the hospital. Here it was found that Slaughter, the colored man, was so badly shocked as to be unconscious. Lyons, a white man, aged thirty-seven, was also badly burned, but will recover.

TERRIBLE STORM IN NEBRASKA

Wind Does Much Damage to Buildings and Crops.

Beaver City, Neb., July 13.—A terrible electric and wind storm prevailed here Sunday afternoon lasting forty-five minutes, in which time 2 1/4 inches of rain fell. The wind blew with great velocity, doing much damage to small buildings, wind mills and to the wheat crop just ready for harvest. The Union Salvation army of Kansas and Nebraska, now holding a camp meeting here, suffered much loss. Nine of their tents were blown down. Commander Holland was struck by a falling tent pole and sustained a dislocation of the shoulder. The camp was flooded with water. Beaver creek is out of its banks and a section of the Burlington track between Beaver City and Stamford was washed out. A cloudburst visited the Little Blue river district south of Hastings and much property is reported destroyed and many head of cattle drowned.

MURDER AND SUICIDE.

Philadelphia Huckster Kills a Woman and Himself.

Philadelphia, July 13.—Jacob Mueller, a huckster, shot and killed Mrs. Margaret Weiss at her home in this city in the afternoon and then killed himself. The couple had lived together for some time and had frequently quarreled.

Irish Immigration Figures.

New York, July 13.—Figures on Irish immigration for the fiscal year ended June 30 have been compiled by the Ellis Island officials and show that about 5,000 more persons arrived from the Emerald Isle during 1902-3 than during 1901-2. The total for the former period was 24,356.

KILLED ON OPERATING TABLE.

Indiana Farmer Shoots His Son-in-Law to Death.

Bluffton, Ind., July 13.—John Terrell, a wealthy farmer living near Petroleum, nine miles north of the city, killed his son-in-law, Melvin Wolfe, Sunday afternoon, firing both barrels of a shotgun into his head as Wolfe lay on the doctor's operating table to have his leg amputated, necessitated by a wound from Terrell's gun, fired a short time before.

Four years ago Wolfe married Terrell's daughter. Wolfe deserted the girl, it is said, leaving her with a child in arms. A suit was brought to compel him to support his wife. It is claimed Wolfe had twice driven by the Terrell home shouting insulting remarks and shaking his fist at Terrell. The third time he drove by, Terrell jumped from some bushes along the roadside and fired at his son-in-law with a double barreled shotgun. The first charge shattered Wolfe's right leg. The second barrel missed Wolfe and was hurled to the office of Dr. Saunders at Petroleum and placed on an operating table to have the leg amputated. While a crowd stood around watching the doctor, Terrell came up from his home in a buggy, broke in the doors of the doctor's office, drove out the crowd at the point of his gun and with the remark "I am after him and I am going to get him yet," fired both barrels into his son-in-law's head. He was terribly mutilated. At the time he fired the young man was only half-conscious. Terrell got in his buggy, loaded up his shotgun and pointed it at the mob that had hastily formed, held it at bay and drove to the sheriff's residence. He is in jail.

NEGRO CARVED BY A MOB.

West Virginia Black Meets Horrible Death for Assaulting a Child.

Wheeling, W. Va., July 13.—A special to the Register from Bluefields says: The full details of one of the blackest crimes that has ever blotted the history of the state have just reached this city. The little town of Devon, Mingo county, was the scene of the assaulting of a fourteen-year-old girl by a negro, followed by his subsequent lynching by an enraged mob numbering over 200 men.

The negro tied the girl to a tree, where she was found by searchers, who then laid in wait and captured the negro when he returned to again assault the child. The mob then tore the clothes from the negro, stuck pins, tacks and knives into his body, cut out his tongue and skinned him until he expired in awful agony, pleading for his life. His heart was then cut out with jackknives, his toes and fingers chopped off for souvenirs, and his gory, mangled form was then soaked with kerosene and burned.

SOLDIERS AFTER NEGROES.

United States Troops Try to Pull Off a Double Lynching.

Kansas City, July 13.—A special from Leavenworth, Kan., says: United States soldiers from Fort Leavenworth attempted to lynch Everidge Williams and Walter Brown, negroes, last night, and for more than an hour the entire police department was kept busy quelling the trouble. Williams and Brown had engaged in a row with soldiers, and one of them fired a number of shots at a soldier. The soldiers then congregated in great numbers, and it was decided to lynch the negroes if they could be found. Twenty-five soldiers and a number of citizens went to the homes of Williams and Brown and surrounded both houses. Ropes had been secured and everything was in readiness for a lynching. Policemen with rifles and revolvers appeared on the scene and finally succeeded in getting Brown and Williams away to the police station. A number of soldiers with revolvers were arrested, but were later released.

RIOT IN NEW YORK.

Police Reserves of Three Precincts Called Out to Suppress Negroes.

New York, July 13.—A riot which required the reserves of three police precincts to suppress broke out last night in the negro quarter in West Sixty-second street. The trouble was precipitated by the attempt of Policeman Connor to arrest William Johnson, the leader of a gang of negroes who were making a disturbance in the street.

The policeman secured his prisoner after a sharp fight and was dragging him to the station house when he was assailed by a mob and volleys of bricks and stones were hurled at him from the roofs of adjoining tenements. On the arrival of two other policemen Connor opened fire on a negro on a roof and the shots were returned from windows of the house. The reserves cleared the streets and chased the rioters over the roofs, making several arrests and finally restored order.

VICTIMS OF TOY PISTOLS.

Total Number of Deaths at Philadelphia Now Amounts to Seven.

Philadelphia, July 13.—Two more deaths from tetanus as a result of injuries received from toy pistols occurred in this city Sunday, making a total of seven deaths from this dreaded disease since the Fourth of July. The latest victims were William Kamei, aged ten years, and Harry Banks, six years of age.

Prince to Inspect the Kearsarge.

Portsmouth, Eng., July 13.—The prince of Wales arrived Sunday evening for the inspection of Rear Admiral Cotton's flagship Kearsarge today. Among the guests at the dinner given by Admiral Hotham in honor of the prince of Wales were the officers of the American squadron.

## THREATEN TO STRIKE

ALL THE FREIGHT HANDLERS IN CHICAGO MAY ONCE MORE QUIT WORK.

TO ASSIST THE TEAMSTERS

DIFFICULTY ARISES FROM REFUSAL OF A FIRM TO FIRE NONUNION MEN.

Chicago, July 13.—The indications are that today will bring the commencement of another conflict between the freight handlers' organization in Chicago and the railways such as was experienced here last summer, when the union was defeated and all but disrupted. The difficulty this time is not over a question of wages, but is brought about by a controversy between the Teamsters' union and the Kellogg Switchboard & Supply company, of which the employees went on strike two months ago because the firm refused to discharge ten nonunion employees. The Kellogg plant has been tied up ever since the strike because of the refusal of the union teamsters to deliver or to take away goods from the factory while the strike was on. Two efforts were made to perform the work with nonunion teamsters under police protection. Riots between policemen and the strikers followed the attempts, but the company succeeded in delivering the goods to the railroads.

Freight Handlers Balked.

When the goods were unloaded onto the railroad platform however, the freight handlers, acting under orders of their president, refused to handle the freight and were discharged. A compact was then formed between the union teamsters and other unions involved in the Kellogg strike and President Curran of the Freight Handlers' union whereby the latter agreed to call a general strike of the freight handlers employed on the railroads in Chicago, if any further attempts were made to deliver goods to the railroads with nonunion teamsters. Preparations were made by the Kellogg company Sunday for the delivery of several carloads of freight to the railroads Monday morning with nonunion teamsters. President Curran of the freight handlers said last night that if the Kellogg people persisted in such a course he would order a general strike of freight handlers in this city today. The railroad managers stated that they were prepared for a strike.

ORGANIZED LABOR AROUSED.

Minnesota Unions Will Fight Ruling of a Minneapolis Judge.

St. Paul, July 13.—Organized labor throughout the entire state is thoroughly aroused by recent developments in the affairs of the building trades in St. Paul and Minneapolis. Recognizing in the present situation a crisis in the cause of labor organization, it has determined to treat it as such. This means that every movement to restrain or restrict the workmen in the exercise of what they believe to be their rights to organize and maintain their organization will be vigorously contested by the entire machinery of organized labor.

This sentiment found concentrated expression Sunday in the meeting of the executive council of the State Federation of Labor, held at Federation hall in this city. The council voted to put the entire force of the organization in the state behind the plumbers of St. Paul in their pending strike, and also to support and assist the Minneapolis Building Trades council in carrying to the supreme court the injunction of Judge Gray of the Hennepin county district court restraining the electrical workers of Minneapolis in their action in the furtherance of their strike.

BANK OFFICIAL ARRESTED.

Alleged to Be a Defaulter to the Extent of About \$45,000.

Newburg, N. Y., July 13.—Joseph W. Cummin is in jail here on the charge of grand larceny. He was secretary and treasurer of the Commercial bank and is alleged to be a defaulter to the extent of about \$45,000, wrecking the bank Saturday the state examiner appeared at the bank and before the examination of the books Cummin took him aside and confessed he was short in his accounts between \$10,000 and \$50,000. He added he would render the examiner every assistance possible and point out the falsified accounts. Cummin was placed under arrest.

OFFICIALS RESTING UP.

Quiet at Evansville, Ind., After a Week of Excitement.

Evansville, Ind., July 13.—The town has been quiet all day and the officials have had an opportunity to rest up after a week of excitement. The negroes remained at their homes all of Sunday and the services at their churches were not well attended. Many of the negroes who left the city during the week are returning, and by the middle of the week business will be resumed in Haptlettown. The authorities will keep no extra guards this week as they believe the excitement is at an end. It is not thought it will be necessary to guard Lee Brown, the negro, when he is brought back for trial for killing Policeman Massey.

SEVERE STORM AT BALTIMORE.

Twenty Persons Injured and Three Hundred Are Homeless.

Baltimore, July 13.—A severe wind and rain storm occurred here Sunday afternoon, which was particularly violent in a limited section of Northeast Baltimore, where, within a radius of about four blocks, fifty houses were unroofed, walks demolished and trees uprooted. Three hundred people were rendered homeless for the time being and were compelled to find shelter in neighboring houses. The damage to houses and household goods is estimated at \$100,000. Twenty persons were injured, one seriously, but none killed.

MOROCCAN TRIBES DEFEATED.

Sultan's War Minister Enters Stronghold of the Pretender.

Tangier, Morocco, July 13.—It is confirmed that the minister of war, El Menebbi, entered Taza, the stronghold of the pretender, Bu Hamara, July 7, after seven days' fighting, which resulted in a complete defeat of the rebellious tribe.

BRITISH SCHOONER CAPSIZED

Three Men Perish in a Disaster Off the Isle of Pines.

Colon, Colombia, July 13.—The British schooner Goldseeker, Captain Digdon, of Liverpool, N. S., was capsized by a heavy squall during the night of July 2, when ten miles off the Isle of Pines. The Goldseeker's mate, cook and boatswain, named respectively Fralick, Downey and Moore, were drowned.

STEAMERS IN COLLISION.

Deckhand Jumps Overboard and Is Drowned During a Panic.

New York, July 13.—The excursion steamer Clifton, running around Manhattan Island, was in collision Sunday afternoon with the Fulton ferryboat New York. During the panic which ensued on the Clifton two deckhands jumped overboard, one being drowned. Passengers were injured and both boats escaped with trifling damage.

CHILD IS DOING WELL.

Skull Cut Open and Anti-Toxin Inserted to Cure Lockjaw.

New York, July 13.—In the case of Walter Graham, a five-year-old boy of Mount Vernon, N. Y., who was suffering from lockjaw through the explosion of a blank cartridge which lacerated his hand July 4, Dr. George C. Weiss Sunday in the presence of twelve physicians, cut open the lad's skull and inserted anti-toxin. The jaws relaxed in an hour and the child is doing well. Dr. Weiss says he will recover.

JOHN O'GROAT'S HOUSE.

A Famous Domicile That Was Long a Landmark in Britain.

In the reign of James IV. of Scotland John O'Groat and his two brothers, Malcolm and Gavin, arrived at Calithness and bought the lands of Warse and Duglisby, near the beach at the mouth of Peuland firth, the northern extremity of the mainland of Scotland. In time their families increased until there were eight households of the same name. They lived as neighbors in the greatest peace and amity, each year holding a festival in the original house. At one of these annual gatherings the question of precedence arose among the younger members, and they disputed as to whom should sit nearest the "head of the table" or enter the room first.

The old grandfather, Johnny O'Groat of history, was made arbitrator. He promised to have all satisfactorily settled by the time of the next annual meeting. Accordingly he built an eight sided house in which to hold the annual jubilee. This octagonal domicile was fitted with a door and a window on each side and a round table in the center. This arrangement made it possible for each family of the O'Groat to enter by his own door and to sit at a table which was practically "without a head."

This famous house was long a landmark in Britain and even to this day is one of the Englishman's starting points of measurement, "Land's End to Johnny O'Groat's" signifying from one end of England to the other.

Sir Boyle Roche.

In every account of the Irish parliament Sir Boyle Roche comes in with the persistency of King Charles' head in Mr. Dick's memorial. His "bird" is as well known as the phoenix and bids fair to share its immortality.

"Sure, Mr. Speaker," said Sir Boyle on the occasion that has made him famous, "how could a man be in two places at once—unless he were a bird?"

But Sir Boyle is not a mere creation of legend. He was a real living man, a fine, bluff, soldierlike old gentleman, holding some post at the vice royal court, sitting for a government borough and always voting faithfully for the "castle." The debate one night was on sinecures, which Curran had indignantly denounced, and, twitted by one of the opposite side on some personal inconsistency in the matter, he replied hotly:

"Sir, I am the guardian of my own honor."

To which Sir Boyle neatly rejoined: "Then the gentleman himself has got a very pretty sinecure."—All the Year Round.

Other people near Moore narrowly escaped being shot. When arrested, Ross was armed with a dirk. Four Winchester rifles were taken from the factory by the police. The rifles are claimed to have been procured by the head of the company and the Italian boss is said to have told his men that they would be protected if they used firearms. Mr. Stearns himself would neither confirm nor deny the statement that he had put weapons into the hands of his men. Moore's injuries are not fatal.

### CREATES A SENSATION.

Idaho Minister Denounces Mormonism and Makes a Prediction.

Denver, Colo., July 13.—The local pulpits were occupied Sunday by visiting clergymen, delegates to the Christian Endeavor convention. Rev. R. J. Campbell of London preached at the Central Presbyterian church and thousands who wished to hear him were turned away for lack of standing room. During the afternoon large meetings were held in the larger church. A temperance rally was held at night at the People's tabernacle. Rev. A. K. Wright of Boise, Idaho, created a sensation at a meeting at Trinity church, by denouncing Mormonism and declaring that the present political leaders of Idaho, Utah and some other states had formed alliances with the Mormon church. He predicted that there would soon be seen ten Mormons in the United States senate.

### Root Confers With Roosevelt.

Oyster Bay, N. Y., July 13.—Secretary of War Root is the guest of President Roosevelt at Sagamore Hill. The pending investigation of army contracts, the Alaskan boundary question, and some problems relating to the Philippines will, it is said, be considered. This probably will be the last conference the president and the secretary of war will have before the latter sails for England to begin the work of the Alaskan boundary commission.

### Fright Drives a Boy to Suicide.

Perry, Ia., July 12.—Frightened because he had set fire to his father's barn, Abner Carpenter, five years old, hid away in the hay mow of the burning building and was burned to death.

## FAILED TO SEE FLAG

FAST MAIL CRASHES INTO AN EXPRESS TRAIN AND KILLS THREE PERSONS.

## FIFTY OTHERS ARE INJURED

THE MAJORITY OF THOSE WHO SUSTAIN HURTS ARE KANSAS CITY NEGROES.

Kansas City, Mo., July 13.—Missouri Pacific fast mail No. 7, which left St. Louis at 3 o'clock Sunday morning for Kansas City, crashed into an excursion train, southbound from Kansas City, that had become stalled between Little Blue and Lee's Summit. Three persons were killed outright, two of them tramps, the other an unknown man, and fifty others were injured. With the exception of one or two of the crew on the fast mail, all of the injured were on the excursion train. Most of them were negroes from Kansas City, and their injuries with one or two exceptions consisted in cuts and bruises. None of the passengers on the fast mail was hurt. Only the engine, one baggage and a mail car on the fast mail left the track. Walter G. Coleman, mail clerk of St. Louis, was badly bruised and cut.

Responsibility for the wreck seems to rest with the crew of the fast mail, which failed to stop promptly when flagged. The engine on the excursion train, which consisted of twelve coaches, heavily loaded, broke down. While repairs were being made two flagmen were sent ahead to stop the fast mail, then about due. The engineer on the mail train failed to see the foremost flagman and only slackened up when warned by the second man, who was within a short distance of the excursion train. The fast mail was running at a high rate of speed and it was impossible to come to a full stop. When the fast mail struck the other train it was making fifteen miles an hour. All the injured will recover.

### STRUCK BY LIGHTNING.

One Man Killed and Several Others Injured at Washington.

Washington, July 13.—During a terrible thunderstorm which passed over the city Sunday, lightning struck a bathhouse near the Potomac river in which about a dozen men had taken refuge on their way home from the bathing beach. One man was killed outright, another so badly injured he may die, and still another is in the hospital suffering severely from the effects of the bolt.

Robert B. Smith was killed and Charles Slaughter, colored, may die. Every one of the men who had taken refuge in the bathhouse felt the effects of the thunderbolt. Ten feet the flag pole over the house was wrecked off and the structure itself was wrecked. C. H. Bannigan, policeman on duty at the bathhouse, while hurrying to the emergency hospital for assistance after the accident was twice rendered temporarily unconscious from the effects of the lightning striking trees near him. Physicians from the hospital succeeded in restoring most of those who had been hurt to consciousness and the remainder were taken to the hospital. Here it was found that Slaughter, the colored man, was so badly shocked as to be unconscious. Lyons, a white man, aged thirty-seven, was also badly burned, but will recover.

### TERRIBLE STORM IN NEBRASKA

Wind Does Much Damage to Buildings and Crops.

Beaver City, Neb., July 13.—A terrible electric and wind storm prevailed here Sunday afternoon lasting forty-five minutes, in which time 2 1/4 inches of rain fell. The wind blew with great velocity, doing much damage to small buildings, wind mills and to the wheat crop just ready for harvest. The Union Salvation army of Kansas and Nebraska, now holding a camp meeting here, suffered much loss. Nine of their tents were blown down. Commander Holland was struck by a falling tent pole and sustained a dislocation of the shoulder. The camp was flooded with water. Beaver creek is out of its banks and a section of the Burlington track between Beaver City and Stamford was washed out. A cloudburst visited the Little Blue river district south of Hastings and much property is reported destroyed and many head of cattle drowned.

### MURDER AND SUICIDE.

Philadelphia Huckster Kills a Woman and Himself.

Philadelphia, July 13.—Jacob Mueller, a huckster, shot and killed Mrs. Margaret Weiss at her home in this city in the afternoon and then killed himself. The couple had lived together for some time and had frequently quarreled.

### Irish Immigration Figures.

New York, July 13.—Figures on Irish immigration for the fiscal year ended June 30 have been compiled by the Ellis Island officials and show that about 5,000 more persons arrived from the Emerald Isle during 1902-3 than during 1901-2. The total for the former period was 24,356.

### KILLED ON OPERATING TABLE.

Indiana Farmer Shoots His Son-in-Law to Death.

Bluffton, Ind., July 13.—John Terrell, a wealthy farmer living near Petroleum, nine miles north of the city, killed his son-in-law, Melvin Wolfe, Sunday afternoon, firing both barrels of a shotgun into his head as Wolfe lay on the doctor's operating table to have his leg amputated, necessitated by a wound from Terrell's gun, fired a short time before.

Four years ago Wolfe married Terrell's daughter. Wolfe deserted the girl, it is said, leaving her with a child in arms. A suit was brought to compel him to support his wife. It is claimed Wolfe had twice driven by Terrell home shouting insulting remarks and shaking his fist at Terrell. The third time he drove by Terrell jumped from some bushes along the roadside and fired at his son-in-law with a double barreled shotgun. The first charge shattered Wolfe's right leg. The second barrel missed. Wolfe was hurried to the office of Dr. Saunders at Petroleum and placed on an operating table to have the leg amputated. While a crowd stood around watching the doctor, Terrell came up from his home in a buggy, broke in the doors of the doctor's office, drove out the crowd at the point of his gun and with the remark "I am after him and I am going to get him yet," fired both barrels into his son-in-law's head. He was terribly mutilated. At the time he fired the young man was only half conscious. Terrell got in his buggy, loaded up his shotgun, and pointed it at the mob that had hastily formed, held it at bay and drove to the sheriff's residence. He is in jail.

### NEGRO CARVED BY A MOB.

West Virginia Black Meets Horrible Death for Assaulting a Child.

Wheeling, W. Va., July 13.—A special to the Register from Bluefields says: The full details of one of the blackest crimes that has ever blotted the history of the state have just reached this city. The little town of Devon, Mingo county, was the scene of the assaulting of a fourteen-year-old girl by a negro, followed by his subsequent lynching by an enraged mob numbering over 200 men.

The negro tied the girl to a tree, where she was found by searchers, who then laid in wait and captured the negro when he returned to again assault the child.

The mob then tore the clothes from the negro, stuck pins, tacks and knives into his body; cut out his tongue and skinned him until he expired in awful agony, pleading for his life. His heart was then cut out with jackknives, his toes and fingers chopped off for souvenirs, and his gory, mangled form was then soaked with kerosene and burned.

### SOLDIERS AFTER NEGROES.

United States Troops Try to Pull Off a Double Lynching.

Kansas City, July 13.—A special from Leavenworth, Kan., says: United States soldiers from Fort Leavenworth attempted to lynch Everidge Williams and Walter Brown, negroes, last night, and for more than an hour the entire police department was kept busy quelling the trouble. Williams and Brown had engaged in a row with soldiers, and one of them fired a number of shots at a soldier. The soldiers then congregated in great numbers, and it was decided to lynch the negroes if they could be found. Twenty-five soldiers and a number of citizens went to the homes of Williams and Brown and surrounded both houses. Ropes had been secured and everything was in readiness for a lynching. Policemen with rifles and revolvers appeared on the scene and finally succeeded in getting Brown and Williams away to the police station. A number of soldiers with revolvers were arrested, but were later released.

### RIOT IN NEW YORK.

Police Reserves of Three Precincts Called Out to Suppress Negroes.

New York, July 13.—A riot which required the reserves of three police precincts to suppress broke out last night in the negro quarter in West Sixty-second street. The trouble was precipitated by the attempt of Policeman Connor to arrest William Johnson, the leader of a gang of negroes who were making a disturbance in the street.

The policeman secured his prisoner after a sharp fight and was dragging him to the station house when he was assailed by a mob and volleys of bricks and stones were hurled at him from the roofs of adjoining tenements. On the arrival of two other policemen Connor opened fire on a negro on a roof and the shots were returned from windows of the house. The reserves cleared the streets and chased the rioters over the roofs, making several arrests and finally restored order.

### VICTIMS OF TOY PISTOLS.

Total Number of Deaths at Philadelphia Now Amounts to Seven.

Philadelphia, July 13.—Two more deaths from tetanus as a result of injuries received from toy pistols occurred in this city Sunday, making a total of seven deaths from this dreaded disease since the Fourth of July. The latest victims were William Karmel, aged ten years, and Harry Banke, six years of age.

### Prince to Inspect the Kearsarge.

Portsmouth, Eng., July 13.—The prince of Wales arrived Sunday evening for the inspection of Rear Admiral Cotton's flagship Kearsarge today. Among the guests at the dinner given by Admiral Hotham in honor of the prince of Wales were the officers of the American squadron.

## THREATEN TO STRIKE

ALL THE FREIGHT HANDLERS IN CHICAGO MAY ONCE MORE QUIT WORK.

## TO ASSIST THE TEAMSTERS

DIFFICULTY ARISES FROM REFUSAL OF A FIRM TO FIRE NONUNION MEN.

Chicago, July 13.—The indications are that today will bring the commencement of another conflict between the freight handlers' organization in Chicago and the railways such as was experienced here last summer, when the union was defeated and all but disrupted. The difficulty this time is not over a question of wages, but is brought about by a controversy between the Teamsters' union and the Kellogg Switchboard & Supply company, of which the employees went on strike two months ago because the firm refused to discharge ten nonunion employees. The Kellogg plant has been tied up ever since the strike because of the refusal of the union teamsters to deliver or to take away goods from the factory while the strike was on. Two efforts were made to perform the work with nonunion teamsters under police protection. Riots between policemen and the strikers followed the attempts, but the company succeeded in delivering the goods to the railroads.

### Freight Handlers Balked.

When the goods were unloaded onto the railroad platform, however, the freight handlers, acting under orders of their president, refused to handle the freight and were discharged. A compact was then formed between the union teamsters and other unions involved in the Kellogg strike and President Curran of the Freight Handlers' union whereby the latter agreed to call a general strike of the freight handlers employed on the railroads in Chicago, if any further attempts were made to deliver goods to the railroads with nonunion teamsters. Preparations were made by the Kellogg company Sunday for the delivery of several carloads of freight to the railroads Monday morning with nonunion teamsters. President Curran of the freight handlers said last night that if the Kellogg people persisted in such a course he would order a general strike of freight handlers in this city today. The railroad managers stated that they were prepared for a strike.

### ORGANIZED LABOR AROUSED.

Minnesota Unions Will Fight Ruling of a Minneapolis Judge.

St. Paul, July 13.—Organized labor throughout the entire state is thoroughly aroused by recent developments in the affairs of the building trades in St. Paul and Minneapolis. Recognizing in the present situation a crisis in the cause of labor organization, it has determined to treat it as such. This means that every movement to restrain or restrict the workmen in the exercise of what they believe to be their rights to organize and maintain their organization will be vigorously contested by the entire machinery of organized labor.

This sentiment found concentrated expression Sunday in the meeting of the executive council of the State Federation of Labor, held at Federation hall in this city. The council voted to put the entire force of the organization in the state behind the plumbers of St. Paul in their pending strike; and also to support and assist the Minneapolis Building Trades council in carrying to the supreme court the injunction of Judge Gray of the Hennepin county district court restraining the electrical workers of Minneapolis in their action in the furtherance of their strike.

### BANK OFFICIAL ARRESTED.

Alleged to Be a Defaulter to the Extent of About \$45,000.

Newburg, N. Y., July 13.—Joseph W. Cummin is in jail here on the charge of grand larceny. He was secretary and treasurer of the Corn wall bank and is alleged to be a defaulter to the extent of about \$45,000, wrecking the bank. Saturday the state examiner appeared at the bank, and before the examination of the books Cummin took him aside and confessed he was short in his accounts between \$40,000 and \$50,000. He added he would render the examiner every assistance possible and point out the falsified accounts. Cummin was placed under arrest.

### OFFICIALS RESTING UP.

Quiet at Evansville, Ind., After a Week of Excitement.

Evansville, Ind., July 13.—The town has been quiet all day and the officials have had an opportunity to rest after a week of excitement. The negroes remained at their homes all of Sunday and the services at their churches were not well attended. Many of the negroes who left the city during the week are returning, and by the middle of the week business will be resumed in Baptist town. The authorities will keep no extra guards this week as they believe the excitement is at an end. It is not thought it will be necessary to guard Lee Brown, the negro, when he is brought back for trial for killing Policeman Massey.

### SEVERE STORM AT BALTIMORE.

Twenty Persons Injured and Three Hundred Are Homeless.

Baltimore, July 13.—A severe wind and rain storm occurred here Sunday afternoon, which was particularly violent in a limited section of Northeast Baltimore, where, within a radius of about four blocks, fifty houses were unroofed, walks demolished and trees uprooted. Three hundred people were rendered homeless for the time being and were compelled to find shelter in neighboring houses. The damage to houses and household goods is estimated at \$100,000. Twenty persons were injured, one seriously, but none killed.

### MOROCCAN TRIBES DEFEATED.

Sultan's War Minister Enters Stronghold of the Pretender.

Tangier, Morocco, July 13.—It is confirmed that the minister of war, El Menebhi, entered Taza, the stronghold of the pretender, Bu Hamara, July 7, after seven days' fighting, which resulted in a complete defeat of the rebellious tribe.

### BRITISH SCHOONER CAPSIZED.

Three Men Perish in a Disaster Off the Isle of Pines.

Colon, Colombia, July 13.—The British schooner Goldseeker, Captain Diggle, of Liverpool, N. S., was capsized by a heavy squall during the night of July 2, when ten miles off the Isle of Pines. The Goldseeker's mate, cook and boatswain, named respectively Frallick, Downey and Moore, were drowned.

### STEAMERS IN COLLISION.

Deckhand Jumps Overboard and Is Drowned During a Panic.

New York, July 13.—The excursion steamer Clifton, running around Manhattan Island, was in collision Sunday afternoon with the Fulton ferryboat New York. During the panic which ensued on the Clifton two deckhands jumped overboard, one being drowned. Passengers were injured and both boats escaped with trifling damage.

### CHILD IS DOING WELL.

Skull Cut Open and Anti-Toxin Inserted to Cure Lockjaw.

New York, July 13.—In the case of Walter Graham, a five-year-old boy of Mount Vernon, N. Y., who was suffering from lockjaw through the explosion of a blank cartridge which lacerated his hand July 4, Dr. George C. Weiss Sunday in the presence of twelve physicians, cut open the lad's skull and inserted anti-toxin. The jaws relaxed in an hour and the child is doing well. Dr. Weiss says he will recover.

### JOHN O'GROAT'S HOUSE.

A Famous Domicile That Was Long a Landmark in Britain.

In the reign of James IV, of Scotland John O'Groat and his two brothers, Malcolm and Gavin, arrived at Calithness and bought the lands of Warse and Duglisly, near the beach at the mouth of Penland firth, the northern extremity of the mainland of Scotland. In time their families increased until there were eight households of the same name. They lived as neighbors in the greatest peace and amity, each year holding a festival in the original house. At one of these annual gatherings the question of precedence arose among the younger members, and they disputed as to whom should sit nearest the "head of the table" or enter the room first.

The old grandfather, Johnny O'Groat of history, was made arbitrator. He promised to have all satisfactorily settled by the time of the next annual meeting. Accordingly he built an eight sided house in which to hold the annual jubilee. This octagonal domicile was fitted with a door and a window on each side and a round table in the center. This arrangement made it possible for each family of the O'Groats to enter by his own door and to sit at a table which was practically "without a head."

This famous house was long a landmark in Britain and even to this day is one of the Englishman's starting points of measurement. "Land's End to Johnny O'Groat's," signifying from one end of England to the other.

### Sir Boyle Roche.

In every account of the Irish parliament Sir Boyle Roche comes in with the persistence of King Charles' head in Mr. Dick's memorial. His "bird" is as well known as the phoenix and bids fair to share its immortality.

"Sure, Mr. Speaker," said Sir Boyle on the occasion that has made him famous, "how could a man be in two places at once—unless he were a bird?" But Sir Boyle is not a mere creation of legend. He was a real living man, a fine, bluff, soldierlike old gentleman, holding some post at the vice regal court, sitting for a government borough and always voting faithfully for the "castle." The debate one night was on sinecures, which Curran had indignantly denounced, and, twitted by one of the opposite side on some personal inconsistency in the matter, he replied hotly:

"Sir, I am the guardian of my own honor."

To which Sir Boyle neatly rejoined:

"Then the gentleman himself has got a very pretty sinecure."—All the Year Round.

Don't spit on the flag or otherwise insult it or you may get into trouble. A man in Indiana tried it and a companion chewed off his ear as a reminder that the American flag must be treated with respect.

Talking about farmers, a tiller of the soil in Polk county near Crookston was robbed of \$2,830 in cash which he kept in the house, a day or so ago. It isn't considered a peculiarity for a Minnesota farmer to have anywhere from one to ten thousand dollars in loose change about his clothes and robbers are turning their attention to them instead of taking chances on the banks.

# BURGLARS BROKE

## INTO GUN STORE

The Old Gun Store on Front Street

Entered by Thieves and

Looted.

STORE WAS CLOSED FOR MONTHS

And it is not Known How Much Stuff has Been Stolen as Yet.

The little gun store, formerly conducted by the late E. H. White on Front street, opposite the Antlers hotel and later conducted by J. N. Waldrop, has been robbed, but the amount that the burglars got cannot be ascertained until A. A. White is communicated with, as he now owns the store.

The little store was sold to Mr. White by Mr. Waldrop some two months ago and since that time it has been closed. Sunday afternoon someone happened to go to the window and looked inside and it was seen that there had been a disturbance and some stuff taken. Chief Sargent was notified and he found that an entrance had been effected from the rear of the building. How much stuff has been taken is not known, but there were a lot of valuable guns and revolvers there and it is presumed that whoever got on the inside made a rich haul. The exact amount of stuff taken will not be known until Mr. White gets here from St. Paul.

## WORK AND REST.

When They Alternate Perfectly, a Man Will Enjoy Both.

After work comes rest. When they alternate perfectly a man may prepare to enjoy real happiness. When they alternate perfectly a man will enjoy both the work and the rest that follows it.

Nature is a just old lady. She seldom gives a man more than he needs. If he elects to live a lazy life she lets his muscles get flabby and his brain go sleepy. She never permits him to long possess a faculty or a nerve or a muscle or a sinew that he does not use.

The proper way to keep your muscles or your brains is to use 'em up and let nature provide you with a fresh supply. Nature is assisted in this work by rest. One may rest some times by seeking a change of labor. Labor thus becomes a recreation—recreation.

To live happily in this world it is not enough to know how to work. A man must also know how to rest. The man who knows only how to work will soon wear out. If he doesn't wear out immediately his work will suffer in some way. No man can do his best work unless he alternates it with a little play or a little rest.

A man who can't drop his work from his mind as readily as he can drop his tools from his hands had better take a few weeks off to study the rest question. His nerves are not what they should be.

If a man wishes to keep his nerve, let him avoid nerves.—Pittsburg Dispatch.

## Small Horses.

The geologists tell us that the oropissus, the ancestor of the noble horse of today, was but little larger than the common rabbit of today and that each had sixteen toes, four on each foot, the same as the cattle of today. After the lapse of ages this sixteen hoofed equus shed a toe or hoof from each foot and thus became a twelve foot animal. The sixteen hoofed variety are first found in the eocene period of geological epochs.

# COMMITTEE WILL

## REPORT FAVORABLY

On the Matter of Municipal Ownership at the Citizen's Committee Meeting.

COMMITTEE VISITS ST. PAUL.

And Secures Some Expert Information Regarding the Cost of a Good Plant Here.

It is not at all unlikely that the city will ultimately decide to put in its own water works plant, especially since members of the committee on municipal ownership have been to St. Paul to make a thorough study of the question. J. M. Elder and Con O'Brien spent a day or two in St. Paul and secured some expert information and when the meeting of the citizen's committee is held on Wednesday evening they will make a verbal report.

The meat of the report will be the information regarding the probable cost of a new plant in this city. It is understood that they have ascertained that the figures given by a recent expert were way off; that a plant sufficient to supply Brainerd with water will not cost over \$125,000, instead of \$200,000. The gentlemen would not give out further information than this, but more of the detail will be given on Wednesday evening.

## ANCIENT COFFEE.

The Way the Beverage Was Brewed in the Seventeenth Century.

There are in existence in Great Britain a few copies of an ancient cookbook, published in 1662, that gives what is perhaps the first English recipe for coffee. The recipe reads:

"To make the drink that is now much used, called coffee.

"The coffee berries are to be bought at any Druggist, about seven shillings the pound. Take what quantity you please, and over a charcoal fire, in an old frying pan, keep them always stirring until they be quite black, and when you crack one with your teeth that it is black within as it is without, yet if you exceed, then do you waste the Oyl, and if less, then will it not deliver its Oyl; and if you do not continue fire till it be very black, then make no coffee, but only a strong salt. Beat and force through a lawn sieve.

"Take clear water, and bell one-third of it away, and it is fit for use. Take one quart of this prepared water, put in it one ounce of your prepared coffee, and boil it gently one hour, and it is fit for your use; drink one-quarter of a pint as hot as you can sip it. It doth abate the fury and sharpness of the Acrimony, which is the gender of the Diseases called Cronical."

## A Coming Lawyer.

A young lady teacher in a West Philadelphia kindergarten thinks that she has discovered a "Philadelphia lawyer" in embryo. She made the discovery in one of the exercises incident to teaching the young idea how to count. After drawing five ones on the black-board and writing beneath the five successive numerals, one, two, three, four, five, together with a painstaking verbal explanation, she attempted to test the understanding of the little ones by turning to one bright eyed little fellow and putting the question:

"Now, Donald, which would you rather have, five pennies or a five cent piece?"

"Five pennies!" Donald promptly replied.

"Why, Donald?" asked the teacher patiently.

"Because," said Donald, "you see, if you lost one of the pennies you'd have four left, and even if you lost four you'd have one left; but if you lost the five cent piece, why, it would all be gone—every penny!"—Philadelphia Ledger.

TALKING about farmers, a tiller of the soil in Polk county near Crookston was robbed of \$2,830 in cash which he kept in the house, a day or so ago. It isn't considered a peculiarity for a Minnesota farmer to have anywhere from one to ten thousand dollars in loose change about his clothes and robbers are turning their attention to them instead of taking chances on the banks.

## BURGLARS BROKE INTO GUN STORE

The Old Gun Store on Front Street Entered by Thieves and Looted.

STORE WAS CLOSED FOR MONTHS

And it is not Known How Much Stuff has Been Stolen as Yet.

The little gun store, formerly conducted by the late E. H. White on Front street, opposite the Antlers hotel and later conducted by J. N. Waldrop, has been robbed, but the amount that the burglars got cannot be ascertained until A. A. White is communicated with, as he now owns the store.

The little store was sold to Mr. White by Mr. Waldrop some two months ago and since that time it has been closed. Sunday afternoon someone happened to go to the window and looked inside and it was seen that there had been a disturbance and some stuff taken. Chief Sargent was notified and he found that an entrance had been effected from the rear of the building. How much stuff has been taken is not known, but there were a lot of valuable guns and revolvers there and it is presumed that whoever got on the inside made a rich haul. The exact amount of stuff taken will not be known until Mr. White gets here from St. Paul.

## WORK AND REST.

When They Alternate Perfectly, a Man Will Enjoy Both.

After work comes rest. When they alternate perfectly a man may prepare to enjoy real happiness. When they alternate perfectly a man will enjoy both the work and the rest that follows it.

Nature is a just old lady. She seldom gives a man more than he needs. If he elects to live a lazy life she lets his muscles get flabby and his brain go sleepy. She never permits him to long possess a faculty or a nerve or a muscle or a sinew that he does not use.

The proper way to keep your muscles or your brains is to use 'em up and let nature provide you with a fresh supply. Nature is assisted in this work by rest. One may rest some times by seeking a change of labor. Labor thus becomes a recreation—re-creation.

To live happily in this world it is not enough to know how to work. A man must also know how to rest. The man who knows only how to work will soon wear out. If he doesn't wear out immediately his work will suffer in some way. No man can do his best work unless he alternates it with a little play or a little rest.

A man who can't drop his work from his mind as readily as he can drop his tools from his hands had better take a few weeks off to study the rest question. His nerves are not what they should be.

If a man wishes to keep his nerve, let him avoid nerves.—Pittsburg Dispatch.

## Small Horses.

The geologists tell us that the oroppeus, the ancestor of the noble horse of today, was but little larger than the common rabbit of today and that each had sixteen toes, four on each foot, the same as the cattle of today. After the lapse of ages this sixteen hoofed equus shed a toe or hoof from each foot and thus became a twelve toed animal. The sixteen hoofed variety are first found in the eocene period of geological epochs.

## COMMITTEE WILL REPORT FAVORABLY

On the Matter of Municipal Ownership at the Citizen's Committee Meeting.

COMMITTEE VISITS ST. PAUL.

And Secures Some Expert Information Regarding the Cost of a Good Plant Here.

It is not at all unlikely that the city will ultimately decide to put in its own water works plant, especially since members of the committee on municipal ownership have been to St. Paul to make a thorough study of the question.

J. M. Elder and Con O'Brien spent a day or two in St. Paul and secured some expert information and when the meeting of the citizen's committee is held on Wednesday evening they will make a verbal report.

The meat of the report will be the information regarding the probable cost of a new plant in this city. It is understood that they have ascertained that the figures given by a recent expert were way off; that a plant sufficient to supply Brainerd with water will not cost over \$125,000, instead of \$200,000. The gentlemen would not give out further information than this, but more of the detail will be given on Wednesday evening.

## ANCIENT COFFEE.

The Way the Beverage Was Brewed in the Seventeenth Century.

There are in existence in Great Britain a few copies of an ancient cookbook, published in 1662, that gives what is perhaps the first English recipe for coffee. The recipe reads:

"To make the drink that is now much used, called coffee.

"The coffee berries are to be bought at any Druggist, about seven shillings the pound. Take what quantity you please, and over a charcoal fire, in an old frying pan, keep them always stirring until they be quite black, and when you crack one with your teeth that it is black within as it is without, yet if you exceed, then do you waste the Oyl, and if less, then will it not deliver its Oyl; and if you do not continue fire till it be well roasted, then make no coffee, but only powder and salt. Beat and force through a lawn sieve.

"Take clear water, and boil one-third of it away, and it is fit for use. Take one quart of this prepared water, put in it one ounce of your prepared coffee, and boil it gently one hour, and it is fit for your use; drink one-quarter of a pint as hot as you can sip it. It doth abate the fury and sharpness of the Acrimony, which is the gender of the Diseases called Cronical."

## A Coming Lawyer.

A young lady teacher in a West Philadelphia kindergarten thinks that she has discovered a "Philadelphia lawyer" in embryo. She made the discovery in one of the exercises incident to teaching the young idea how to count. After drawing five ones on the black-board and writing beneath the five successive numerals, one, two, three, four, five, together with a painstaking verbal explanation, she attempted to test the understanding of the little ones by turning to one bright eyed little fellow and putting the question:

"Now, Donald, which would you rather have, five pennies or a five cent piece?"

"Five pennies!" Donald promptly replied.

"Why, Donald?" asked the teacher patiently.

"Because," said Donald, "you see, if you lost one of the pennies you'd have four left, and even if you lost four you'd have one left; but if you lost the five cent piece, why, it would all be gone—every penny!"—Philadelphia Ledger.

## FOUND IT WAS NO SMALL TASK

Electric Light Committee of Council Met to go Over Revenue From Meter Rates

## DID NOT MAKE MUCH HEADWAY

And the Matter Will be Left in the Hands of City Clerk And Superintendent.

There is a question which has agitated the city council for some time and in a short time now an attempt will be made to bring it to a focus, in fact, a meeting of the electric light committee was held yesterday afternoon to take the initiative.

The matter is in regard to the revenue received by the city from the electric light plant under the meter system as compared with the old flat rate system.

The matter was brought up at a meeting of the city council several months ago and at that time it was intimated by one of the members of the council who has made a careful study of this branch of the city's interests, that he did not think the city was being benefited by the change in the system.

It is generally thought now that the city is losing money on the meter system, but it will take some time of course, for those who are to go over the work and check the figures up to state definitely what the actual status is. The electric light committee started in yesterday afternoon to check the matter but the members found they had a bigger task on their hands than they had imagined, and it was finally decided to leave it in the hands of the city clerk and superintendent of the plant to check up, they being more familiar with the rates, etc.

There are many contingencies which go to affirm the statement that the plant has lost money since the meter system was installed. In the first place shortly after the new order of things was inaugurated the stores began to close evenings, and this naturally cut off the revenue. Then people began to cut down their supply of lights and became more economical and there was a noticeable change throughout the city in this regard. More recently the saloons were ordered closed at an earlier hour on Saturday evening and this too is given as another reason why it is thought the plant is running behind.

The meter system, it is understood on good authority, has been generally satisfactory to a large majority of the consumers of the city, but of course this has nothing to do with the question above mentioned and when the comparative figures are given out, showing the net earnings of the plant during a stated period before and after the installation of the meter system, they will be of a very interesting nature.

## ENTIRE LAND GRANT PURCHASED

Saskatchewan Valley & Manitoba Land Company Buys Grant of Canadian Northern Railway.

The Saskatchewan Valley & Manitoba Land company has purchased the entire land grant of the Canadian Northern Railway in Manitoba, Assiniboia and Saskatchewan, comprising more than 1,500,000 acres of prime wheat land.

The new company is composed of men well known in American and Canadian business circles who have been associated with several land companies and have always succeeded. Their success last year with their million acres makes it certain that they will do as well with the land empire they have just purchased.

By the terms of the purchase from the Canadian Northern Railway, this powerful company comes into possession of more than 1,500,000 acres of the best wheat land in western Canada, and, therefore in the world. It lies along the Canadian Northern railway and the Qu'Appelle, Long Lake & Saskatchewan branch of the Canadian Pacific, and includes the greater part of the famous Saskatchewan valley. The main line of the Canadian Northern is building through the center of this tract. A branch of the Canadian Pacific penetrates it and the Mossomin and Yorkton branches of the Canadian Pacific are building through it. It is needless to say that the build of these railways hundreds of miles in length will give splendid means of transport to all portions of this imperial land purchase.

## The Big Carnival.

The following regarding the big Patterson & Brainerd carnival which is to be in Brainerd from July 20 to 25, under the auspices of the Brainerd Aerie of Eagles, is taken from the Waterloo Daily Reporter:

"About 5,000 people paid to enter the main gate to the midway on Mulberry street yesterday during the afternoon and evening performances. Visitors from other towns and the surrounding country were conspicuous and the majority of them remained in the city from early morning until midnight, when, satisfied with their day's amusement, returned to their homes. The second day of the fair was a success and those in charge are more than pleased with the satisfactory manner in which the carnival has thus far progressed. The crowds have been orderly and no trouble given the police or carnival authorities.

About 11 o'clock last evening the main doors to the midway were thrown open allowing anyone on Fourth street a view of the midway. The sight is a pretty one. The midway is brilliantly lighted and the various attractions are covered with electric lights which materially assist in making the scene one of dazzling beauty. The street was well filled with visitors until midnight and a scene of activity presented until this hour. The crowd left feeling satisfied and words of commendation could be heard on every hand."

## CONTRACT AWARDED MINNEAPOLIS FIRM

For Heating and Ventilating New Additions to Washington and Lowell.

## LET TO MOORE HEATING CO.

For \$7497—All Bids Were Close There Being \$200 Between Lowest and Highest.

There was a meeting of the board of education on Saturday evening, called for the purpose of letting the contract for putting the heating and ventilating plants in the new additions to the Washington and Lowell school buildings.

A communication was received from Architect Wagenstein stating that it would be impossible for him to be present. A communication was also received from the building committee in which it recommended that the secretary be instructed to advertise for the bids for the plumbing in the additions.

The following bids were then opened for the heating and ventilating:

American Heating Co., Minneapolis.....	\$7675
Moore Heating Co., Minneapolis.....	7497
F. E. Kretz, St. Cloud.....	7725
Murphy & Sherlund, Brainerd.....	7800

The Moore Heating company, of Minneapolis, being the lowest bidders they were awarded the contract.

## THE CASE WAS DISMISSED.

Robert C. McLain did not Prove to be Such a Bold, Bad Man After all.

The case against Robert C. McLain, which was tried late Saturday afternoon was dismissed by Judge Warner in the municipal court. This is the case where Arthur S. Russell thought he had a grievance and wanted McLain placed under bonds to keep the peace. He complained that McLain was carrying a gun and that he had threatened to do him bodily harm, but the evidence did not tend to prove anything of the sort although it was shown that the defendant did carry a gun.

## A Big Circus Coming.

The great Sells & Downs shows have completed all arrangements to exhibit in Brainerd on Thursday, July 16th. The Sells & Downs show has advanced rapidly during recent years until it has reached the front rank of tented enterprises, and is one of the biggest on the road. It advertises a greater number of features than any other show, and judging from the comments of the press, the commercial travelers and others who have seen it, the Sells & Downs show produces all it advertises. With the Sells & Downs shows from six to eight acts are to be seen at one time, in the three rings, hippodrome track, on the stage and in mid-air. The management of a show the size of Sells & Downs does not expect the people to be able to watch all of the many features, but they arrange to have several acts of various kinds at the same time so that the spectator may take his choice and enjoy those that he admires most. Since people's tastes differ it is necessary for a circus the size of Sells & Downs to be cosmopolitan in character in order that all may be pleased, and those who have seen it know that it pleases and satisfies the most critical.

## TARIFF PARAMOUNT ISSUE.

Former Comptroller James H. Eckels Interviewed on Politics.

Milwaukee, July 1.—James H. Eckels, of Chicago, comptroller of the currency under the Cleveland administration, said in an interview Friday that the tariff is the paramount issue and that the Democrats should make their next national campaign on that.

"Less extravagance in public expenditures is another plank on which they should stand," said Mr. Eckels. The currency question, according to Mr. Eckels, cannot be made a party issue and there appears to be nothing but the tariff on which to base the campaign.

He would not state any preference as to a candidate, but said he was anxious that the party should present a candidate and platform which would command the respect and support of the conservative elements of the country.

## BANDITS ARE CONVICTED.

Ed Estelle and F. Clark Robbed a Train in Wisconsin.

La Crosse, Wis., July 1.—Ed Estelle and F. Clark, who had been on trial for over a week at Mount Carroll, charged with the robbery of the Burlington Limited train last September at Marcus, were convicted on the first ballot. Positive identification by Andy Oelay of La Crosse, from whom they purchased the boat, by two rivermen, and the identification of their pal, a man named Gordon, whom they murdered on the night of the holdup, convicted them. Two of the five bandits were never captured.

## FOUND IT WAS NO SMALL TASK

Electric Light Committee of Council Met to go Over Revenue From Meter Rates

### DID NOT MAKE MUCH HEADWAY

And the Matter Will be Left in the Hands of City Clerk And Superintendent.

There is a question which has agitated the city council for some time and in a short time now an attempt will be made to bring it to a focus, in fact, a meeting of the electric light committee was held yesterday afternoon to take the initiative.

The matter is in regard to the revenue received by the city from the electric light plant under the meter system as compared with the old flat rate system.

The matter was brought up at a meeting of the city council several months ago and at that time it was intimated by one of the members of the council who has made a careful study of this branch of the city's interests, that he did not think the city was being benefited by the change in the system.

It is generally thought now that the city is losing money on the meter system, but it will take some time of course, for those who are to go over the work and check the figures up to state definitely what the actual status is. The electric light committee started in yesterday afternoon to check the matter but the members found they had a bigger task on their hands than they had imagined, and it was finally decided to leave it in the hands of the city clerk and superintendent of the plant to check up, they being more familiar with the rates, etc.

There are many contingencies which go to affirm the statement that the plant has lost money since the meter system was installed. In the first place shortly after the new order of things was inaugurated the stores began to close evenings, and this naturally cut off the revenue. Then people began to cut down their supply of lights and became more economical and there was a noticeable change throughout the city in this regard. More recently the saloons were ordered closed at an earlier hour on Saturday evening and this too is given as another reason why it is thought the plant is running behind.

The meter system, it is understood on good authority, has been generally satisfactory to a large majority of the consumers of the city, but of course this has nothing to do with the question above mentioned and when the comparative figures are given out, showing the net earnings of the plant during a stated period before and after the installation of the meter system, they will be of a very interesting nature.

### ENTIRE LAND GRANT PURCHASED

Saskatchewan Valley & Manitoba Land Company Buys Grant of Canadian Northern Railway.

The Saskatchewan Valley & Manitoba Land company has purchased the entire land grant of the Canadian Northern Railway in Manitoba, Assiniboia and Saskatchewan, comprising more than 1,500,000 acres of prime wheat land.

The new company is composed of men well known in American and Canadian business circles who have been associated with several land companies and have always succeeded. Their success last year with their million acres makes it certain that they will do as well with the land empire they have just purchased.

By the terms of the purchase from the Canadian Northern Railway, this powerful company company comes into possession of more than 1,500,000 acres of the best wheat land in western Canada, and, therefore in the world. It lies along the Canadian Northern railway and the Qu'Appelle, Long Lake & Saskatchewan branch of the Canadian Pacific, and includes the greater part of the famous Saskatchewan valley. The main line of the Canadian Northern is building through the center of this tract. A branch of the Canadian Pacific penetrates it and the Mossomin and Yorktown branches of the Canadian Pacific are building through it. It is needless to say that the build of these railways hundreds of miles in length will give splendid means of transport to all portions of this imperial land purchase.

### The Big Carnival.

The following regarding the big Patterson & Brainerd carnival which is to be in Brainerd from July 20 to 25, under the auspices of the Brainerd Aerie of Eagles, is taken from the Waterloo Daily Reporter:

"About 5,000 people paid to enter the main gate to the midway on Mulberry street yesterday during the afternoon and evening performances. Visitors from other towns and the surrounding country were conspicuous and the majority of them remained in the city from early morning until midnight, when, satisfied with their day's amusement, returned to their homes. The second day of the fair was a success and those in charge are more than pleased with the satisfactory manner in which the carnival has thus far progressed. The crowds have been orderly and no trouble given the police or carnival authorities.

About 11 o'clock last evening the main doors to the midway were thrown open allowing anyone on Fourth street a view of the midway. The sight is a pretty one. The midway is brilliantly lighted and the various attractions are covered with electric lights which materially assist in making the scene one of dazzling beauty. The street was well filled with visitors until midnight and a scene of activity presented until this hour. The crowd left feeling satisfied and words of commendation could be heard on every hand."

## NEW GAME OF KNOCKERINA.

Novel Gambling Diversion Started  
in Washington.

The men who exist in a certain  
boarding house in Washington have  
developed a new gambling game, the  
Washington Post says. They call it  
"knockerina." It is best played when  
all the boarders, men and women, are  
sitting out on the front porch and on  
the lawn during the hours of daylight  
that remain after dinner, although it  
can be played at any time when wo-  
men not living in that particular board-  
ing house are around or passing in re-  
view in front of the house.

The method of "knockerina" is as  
follows:

There is a standing idea among all  
of the male boarders that no woman  
will listen to men's praise of another  
woman for her good looks or, for that  
matter, for any other quality without  
getting in some sort of a dab at the  
expense of the praised woman.

So, for example, when all of the  
boarders are sitting out in front of the  
house one of the "knockerina" playing  
men, seeing a woman coming down the  
street, will exclaim:

"Pretty girl, that, isn't she?"

He says this so that all of the wo-  
men can hear the remark.

If by any possible chance any of the  
women agree with him that the girl  
coming down the street really is pretty  
then the man making the remark is out  
a quarter, the other "knockerina"  
players matching among themselves to  
see which of them shall receive the quarter.

If, however—and this is what almost  
invariably happens—one of the women  
boarders makes a different reply, a  
knock, in fact, as, for example, "Oh,  
yes; she's fairly good looking, but she  
has such an ugly walk," or "Um—yes,  
not so bad looking, but her eyes are  
too close together," or "Decent enough  
appearing, but she's so mean to her  
mother," or "She pads dreadfully," or  
"She's snippy and stuck up," or "She  
cries for hours every day because she  
knows her nose is crooked," or some-  
thing like that. In this case the young  
man who has remarked that the girl  
coming down the street was pretty  
wins a quarter from the other "knock-  
erina" players, and they match among  
themselves to see which of them shall  
give the 25 cents to the winner.

It's a great game, all right, but the  
fellows who are as occasion arises  
forced to take the short end of it by  
standing to lose a quarter on the propo-  
sition that none of the women will  
have a knock for the woman praised  
are losing out pretty fast so far.

## NEW ELECTRIC TIMER.

Automatic Stop Watch For Timing  
Track Runners.

A new electrically regulating stop  
watch for use in timing track runners  
has been invented by J. T. Roberts,  
Yale college, New Haven, Conn., 1905,  
says the Jewelers' Circular and Re-  
view. In many ways it is similar to  
some of the automatic arrangements  
which have from time to time been  
tried for this purpose. The invention  
of Mr. Roberts is considered by Mi-  
chael Murphy, the trainer, to be the  
best of the kind he has seen.

The watch is connected with an elec-  
tric current, the power for which is ob-  
tained from dry batteries, and it works  
automatically. At the starting point is  
an arrangement connected with the  
wires running to the watch, and when  
the runner makes a start the current is  
closed and the watch starts. In the  
same manner there is a connection be-  
tween the tape and the watch, which,  
upon being struck by the runner, opens  
the current and stops the watch.

## The Crops in Kansas.

Kansas is in serious straits. Ordin-  
arily the corn crop has been cultivated  
two or three times by this season of  
the year and the farmers enabled to  
direct all their energy to the harvest-  
ing of the wheat, says the New York  
Commercial Advertiser. Cold and wet  
have put the corn back so far that the  
two kinds of work will be simulta-  
neous. The latest reports indicate  
that the wheat crop will reach 80,000-  
000 bushels, and every available man  
is needed to harvest it. The corn crop is  
estimated at 100,000,000 bushels, or  
half of what it would have been ex-  
cept for the rains of early June. In-  
stead of 5,000,000 acres being given  
to this crop one-third of that amount  
is planted. Oklahoma estimates a  
wheat crop of 40,000,000 bushels, the  
crop averaging twenty bushels, but bet-  
ter than sixty-three pounds.

## A New Primary Battery.

A. J. Jarman of New York has de-  
vised an electric battery of which the  
chief feature is the use of aluminum  
in place of zinc, says the New York  
Tribune. The other "element," as elec-  
tricians would call it, is platinized steel  
and the exciting fluid is caustic soda  
or ammonia salts. This type of cell  
generates its own current and does not  
need charging, as a secondary battery  
does. Hence it is entirely independent  
of dynamos. Mr. Jarman hopes to be  
able to adapt his invention to automo-  
bile service. At present he can give  
no assurance that more work can be  
obtained from the weight of battery  
or that the cost of operation would be  
as low as with the storage system.  
For a forty mile run it would be neces-  
sary to consume material costing about  
\$20.

## Typesetting by Electricity.

M. d'Arsonval has exhibited to the  
Academy of Science at Paris an inven-  
tion which does typesetting by tele-  
graph, an electric current being made  
to perforate the characters on a mov-  
ing band connected with a typesetting  
machine, says the New York World.  
It is asserted that this contrivance,  
which is the work of a Mr. Royal, will  
disperse with transcriptions altogether  
for press purposes.

## AMERICAN BOAT WINS A RACE.

Robert Goellet's Swan Defeats the  
Swedish Yacht Khaki.

Copenhagen, July 13.—The regatta  
of the Royal Yacht club opened Sun-  
day in fine, warm weather. Seventy  
yachts, representing Great Britain,  
Germany, Scandinavia and America,  
participated. Robert W. Goellet's  
yacht Swan won the first prize in class  
four, defeating the well known Swedish  
racer, Khaki. The course was twenty  
miles long. The Swan's time was  
5:42:06, and the Khaki's 6:12:51.

## YOUNG GIANT DEAD.

Nearly Seven and a Half Feet High  
and Weighed 345 Pounds.

Belleville, Ill., July 13.—William  
Hobbs of Brooklyn, the Southern Illi-  
nois giant, died here during the day.  
Hobbs was only twenty-three years of  
age, yet he was a giant in every re-  
spect. He was 7 feet 5 inches in height  
and weighed 345 pounds. Both his  
mother and father are of giant stature  
and are still living.

## MILITARY RESTORED ORDER.

Seventeen Persons Injured During a  
Disturbance at Nagyvarad.

Budapest, July 13.—Disorders broke  
out Sunday at a meeting of electors  
at Nagyvarad, capital of Bihar prov-  
ince, which was being addressed by  
Dr. Barabas, the leader of the extreme  
Left in the Hungarian diet. Seven-  
teen persons were injured, and the  
military had to be summoned to re-  
store order. Many arrests were made.

## Buildings Totally Destroyed.

Belleville, Pa., July 13.—The Bello-  
fonte Window Glass company's plant  
and the car barn of the Belleville  
Central railroad and adjacent build-  
ings were totally destroyed by fire  
Sunday. Total loss, \$65,000.

## Intensely Hot in Paris.

Paris, July 13.—The intense heat  
continued Sunday until a severe  
storm broke over the city and reduced  
the temperature. Six persons suc-  
cumbed to sunstroke during the early  
part of the day.

## TELEGRAPHIC BREVITIES.

## Animals and Telegraph Poles.

"A strange thing is the effect of elec-  
trical energy on birds and wild beasts,"  
says a telegraph lineman quoted in the  
Philadelphia Record. "Woodpeckers  
are continually tapping telegraph poles.  
In the country you will find every-  
where poles honeycombed by the  
sturdy bills of woodpeckers. The birds  
mistake the humming sound inside the  
poles for the humming of insects, and  
it is to get at these supposed insects  
that they make their perforations."  
"Bears, on the other hand, think the  
humming comes from bees, and they  
overturn the stones at the pole's base  
in their endeavor to get at the honey.  
Wolves are afraid of the sound. A  
wolf won't go near a telegraph pole  
under any circumstances."

## An Appetizer.

In the family of Mr. H., treasurer  
of one of our states, was a small boy  
of four who was the possessor of a  
fine rat terrier. One day the dog mys-  
teriously disappeared, and the child,  
Ralph, was heartbroken. Soon after-  
ward Mrs. H. gave an informal dinner  
to other state officers and their wives,  
and Master Ralph was allowed to be at  
the table under promise of good be-  
havior. Things went on smoothly till  
the meat course, when a fine roasted  
pig was brought in, and Ralph thought  
his long lost pet was going to be served  
to the guests. He arose in his chair,  
pointed at the pig and with tears in his  
eyes and voice cried: "Oh, my doggie,  
my doggie! I want my doggie!"—Good  
Housekeeping.

## Lincoln on Swearing.

Senator Fessenden once came roaring  
at President Lincoln over a question of  
petronage. The president listened till  
the storm was over, then asked:  
"You are an Episcopalian, aren't you,  
Fessenden?"  
"Yes, sir, I belong to that church."  
"I thought so. You Episcopallians all  
swear alike. Seward is an Episcopallian.  
Stanton is a Presbyterian; you  
ought to hear him swear."—"The True  
Abraham Lincoln."

# NEW GAME OF KNOCKERINA.

Novel Gambling Diversion Started  
in Washington.

The men who exist in a certain  
boarding house in Washington have  
developed a new gambling game, the  
Washington Post says. They call it  
"knockerina." It is best played when  
all the boarders, men and women, are  
sitting out on the front porch and on  
the lawn during the hours of daylight  
that remain after dinner, although it  
can be played at any time when wo-  
men not living in that particular board-  
ing house are around or passing in re-  
view in front of the house.

The method of "knockerina" is as  
follows:

There is a standing idea among all  
of the male boarders that no woman  
will listen to men's praise of another  
woman for her good looks or, for that  
matter, for any other quality without  
getting in some sort of a dab at the  
expense of the praised woman.

So, for example, when all of the  
boarders are sitting out in front of the  
house one of the "knockerina" playing  
men, seeing a woman coming down the  
street, will exclaim:

"Pretty girl, that, isn't she?"

He says this so that all of the wo-  
men can hear the remark.

If by any possible chance any of the  
women agree with him that the girl  
coming down the street really is pretty  
then the man making the remark is out  
a quarter, the other "knockerina"  
players matching among themselves to  
see which of them shall receive the  
quarter.

If, however—and this is what almost  
invariably happens—one of the women  
boarders makes a different reply, a  
knock, in fact, as, for example, "Oh,  
yes; she's fairly good looking, but she  
has such an ugly walk," or "Um—yes,  
not so bad looking, but her eyes are  
too close together," or "Decent enough  
appearing, but she's so mean to her  
mother," or "She pads dreadfully," or  
"She's snippy and stuck up," or "She  
cries for hours every day because she  
knows her nose is crooked," or some-  
thing like that. In this case the young  
man who has remarked that the girl  
coming down the street was pretty  
wins a quarter from the other "knock-  
erina" players, and they match among  
themselves to see which of them shall  
give the 25 cents to the winner.

It's a great game, all right, but the  
fellows who are as occasion arises  
forced to take the short end of it by  
standing to lose a quarter on the propo-  
sition that none of the women will  
have a knock for the woman praised  
are losing out pretty fast so far.

NEW ELECTRIC TIMER.

Automatic Stop Watch For Timing  
Track Runners.

A new electrically regulating stop  
watch for use in timing track runners  
has been invented by J. T. Roberts,  
Yale college, New Haven, Conn., 1905,  
says the Jewelers' Circular and Re-  
view. In many ways it is similar to  
some of the automatic arrangements  
which have from time to time been  
tried for this purpose. The invention  
of Mr. Roberts is considered by Mi-  
chael Murphy, the trainer, to be the  
best of the kind he has seen.

The watch is connected with an elec-  
tric current, the power for which is ob-  
tained from dry batteries, and it works  
automatically. At the starting point is  
an arrangement connected with the  
wires running to the watch, and when  
the runner makes a start the current is  
closed and the watch starts. In the  
same manner there is a connection be-  
tween the tape and the watch, which,  
upon being struck by the runner, opens  
the current and stops the watch.

The Crops in Kansas.

Kansas is in serious straits. Ordinarily  
the corn crop has been cultivated  
two or three times by this season of  
the year and the farmers enabled to  
direct all their energy to the harvest-  
ing of the wheat, says the New York  
Commercial Advertiser. Cold and wet  
have put the corn back so far that the  
two kinds of work will be simultane-  
ous. The latest reports indicate  
that the wheat crop will reach 80,000-  
000 bushels, and every available man is  
needed to harvest it. The corn crop is  
estimated at 100,000,000 bushels, or  
half of what it would have been, ex-  
cept for the rains of early June. In-  
stead of 5,000,000 acres being given  
to this crop one-third of that amount  
is planted. Oklahoma estimates a  
wheat crop of 40,000,000 bushels, the  
crop averaging twenty bushels, but bet-  
ter than sixty-three pounds.

A New Primary Battery.

A. J. Jarman of New York has de-  
vised an electric battery of which the  
chief feature is the use of aluminum  
in place of zinc, says the New York  
Tribune. The other "element" as elec-  
tricians would call it, is platinized steel  
and the exciting fluid is caustic soda  
or ammonia salts. This type of cell  
generates its own current and does not  
need charging, as a secondary battery  
does. Hence it is entirely independent  
of dynamos. Mr. Jarman hopes to be  
able to adapt his invention to automo-  
bile service. At present he can give  
no assurance that more work can be  
obtained from the weight of battery  
or that the cost of operation would be  
as low as with the storage system.  
For a forty mile run it would be neces-  
sary to consume material costing about  
\$20.

Typesetting by Electricity.

M. d'Arsonval has exhibited to the  
Academy of Science at Paris an inven-  
tion which does typesetting by tele-  
graph, an electric current being made  
to perforate the characters on a mov-  
ing band connected with a typesetting  
machine, says the New York World.  
It is asserted that this contrivance,  
which is the work of a Mr. Royal, will  
dispense with transcriptions altogether  
for press purposes.

# AMERICAN BOAT WINS A RACE.

Robert Golet's Swan Defeats the  
Swedish Yacht Khaki.

Copenhagen, July 13.—The regatta  
of the Royal Yacht club opened Sun-  
day in fine, warm weather. Seventy  
yachts, representing Great Britain,  
Germany, Scandinavia and America,  
participated. Robert W. Golet's  
yacht Swan won the first prize in class  
four, defeating the well known Swedish  
racer, Khaki. The course was twenty  
miles long. The Swan's time was  
5:42:06, and the Khaki's 6:12:51.

# YOUNG GIANT DEAD.

Nearly Seven and a Half Feet High  
and Weighed 345 Pounds.

Belleville, Ill., July 13.—William  
Hobbs of Brooklyn, the Southern Illi-  
nois giant, died here during the day.  
Hobbs was only twenty-three years of  
age, yet he was a giant in every re-  
spect. He was 7 feet 5 inches in height  
and weighed 345 pounds. Both his  
mother and father are of giant stature  
and are still living.

# MILITARY RESTORED ORDER.

Seventeen Persons Injured During a  
Disturbance at Nagyvarad.

Budapest, July 13.—Disorders broke  
out Sunday at a meeting of electors  
at Nagyvarad, capital of Bihar pro-  
vince, which was being addressed by  
Dr. Barabas, the leader of the extreme  
Left in the Hungarian diet. Seven-  
teen persons were injured, and the  
military had to be summoned to re-  
store order. Many arrests were made.

# Buildings Totally Destroyed.

Belleville, Pa., July 13.—The Belle-

and the car barn of the Belleville  
Central railroad and adjacent build-  
ings were totally destroyed by fire  
Sunday. Total loss, \$65,000.

# Intensely Hot in Paris.

Paris, July 13.—The intense heat  
continued Sunday until a severe  
storm broke over the city and reduced  
the temperature. Six persons suc-  
cumbed to sunstroke during the early  
part of the day.

# Animals and Telegraph Poles.

"A strange thing is the effect of elec-  
trical energy on birds and wild beasts,"  
says a telegraph lineman quoted in the  
Philadelphia Record. "Woodpeckers  
are continually tapping telegraph poles.  
In the country you will find every-  
where poles honeycombed by the  
sturdy bills of woodpeckers. The birds  
mistake the humming sound inside the  
poles for the humming of insects, and  
it is to get at these supposed insects  
that they make their perforations."  
"Bears, on the other hand, think the  
humming comes from bees, and they  
overturn the stones at the pole's base  
in their endeavor to get at the honey.  
Wolves are afraid of the sound. A  
wolf won't go near a telegraph pole  
under any circumstances."

# An Appetizer.

In the family of Mr. H., treasurer  
of one of our states, was a small boy  
of four who was the possessor of a  
fine rat terrier. One day the dog mys-  
teriously disappeared, and the child,  
Ralph, was heartbroken. Soon after-  
ward Mrs. H. gave an informal dinner  
to other state officers and their wives,  
and Master Ralph was allowed to be at  
the table under promise of good be-  
havior. Things went on smoothly till  
the meat course, when a fine roasted  
pig was brought in, and Ralph thought  
his long lost pet was going to be served  
to the guests. He arose in his chair,  
pointed at the pig and with tears in his  
eyes and voice cried: "Oh, my doggie,  
my doggie! I want my doggie!"—Good  
Housekeeping.

# Lincoln on Swearing.

Senator Fessenden once came visiting  
at President Lincoln over a question  
of patronage. The president listened till  
the story was over, then asked:  
"You are an Episcopalian, aren't you,  
Fessenden?"

"Yes, sir, I belong to that church."

"I thought so. You Episcopallians all  
swear alike. Seward is an Episcopalian.  
Stanton is a Presbyterian; you ought  
to hear him swear."—"The True  
Abraham Lincoln."

# Spoke Advisedly.

Farmer Reepum—I was told hard-  
stones fell over in Clay county that  
looked like hemlock cones through the  
air.

Farmer Thrashum—I'll bet the fellow

stermin' troupe."—Kansas City Journal.

# Quite a Difference.

"What is the difference between hens  
and poultry, pop?"  
"Why, hens, my son, are things that  
belong to our neighbors; poultry is  
something a man owns himself."—Yon-  
kers Statesman.
